DISTRICT COUNCIL**

RESOURCE CONSENT APPLICATION

U220300

Dunhuan Trust

Cissy Bay

Submissions Close

5.00 pm Thursday 9 June 2022

Application for Resource Consent or Fast Track Resource Consent

**MARLBOROUGH
DISTRICT COUNCIL**

This application is made under Section 88 or 87AAC of the Resource Management Act 1991

Please read and complete this form thoroughly and provide all details relevant to your proposal. Feel free to discuss any aspect of your proposal, the words used in this form or the application process with Council staff, who are here to help.

This application will be checked before formal acceptance. If further information is required, you will be notified accordingly. When this information is supplied, the application will be formally received and processed further.

You may apply for more than one consent that is needed to cover several aspects of the activity on this form.

For Office Use

ISO 9001
Document Number:
RAF0002-C11913

Lodgement Fee Paid \$

Receipt No.

Consent No.

Case Officer:

Date Received:

1. Applicant Details (If a trust, list full names of all trustees.)

Name:
(full legal name)

DUNHUN TRUST - ANGUS ROLLINSON
HUGH ROLLINSON
DUNCAN ROLLINSON
JONATHAN ROLLINSON

Company/Trust Number:
(if applicable)

Electronic Address for Service: chrisandrucki@farmside.co.nz

Mailing Address:
(including post code)

ROLLINSON
771 LISMORE MAYFIELD RD
RD 5 ASHBURTON

Phone: (Daytime) 0272052185 Phone: (Mobile)

2. Agent Details (If your agent is dealing with the application, all communication regarding the application will be sent to the agent.)

Name:

Electronic Address for Service:

Mailing Address:
(including post code)

Phone: (Daytime) Phone: (Mobile)

3. Type of Resource Consent Applied For

- ☒ Coastal Permit ☐ Discharge Permit ☐ Land Use ☐ Subdivision ☐ Water Permit
- ☐ Fast Track Application
- ☒ I opt out of the fast track consent process
- ☒ I do not opt out of the fast track consent process

4. Description of the Activity

The activity to which the application relates is as follows:

We would like to obtain a boat mooring in Cissy Bay where we have just purchased a beach.

5. Supplementary Information Provided?

☒ Yes ☐ No

Council has supplementary forms for some activities, such as moorings, water permits, domestic wastewater, discharge permits, to assist applicants with providing the required information.

6. Site Details

The site to which the proposed activity is to occur is as follows:

Location (address):

E1669554; N5462015

Legal description (i.e. Lot 1 DP 1234):

in Cissy Bay

(Attach a sketch of the locality and activity points. Describe the location in a manner which will allow it to be readily identified, e.g. house number and street address, Grid Reference, the name of any relevant stream, river, or other water body to which application may relate, proximity to any well known landmark, DP number, Valuation Number, Property Number.)

Please attach a copy of the Certificate of Title that is less than 3 months old (except for coastal or water permits).

Owners/Occupiers of the Site

The names and addresses of the owner and occupier of the land (other than the applicant):

Affected Persons

Please attach the written approval of affected persons/adjoining property owners and occupiers.

Note: As a matter of good practice and courtesy you should consult your neighbours about your proposal. If you have not consulted your neighbours, please give brief reasons on a separate sheet why you have not.

7. Assessment of Effects on the Environment (AEE) *(Attach separate sheet detailing AEE.)*

I attach, in accordance with Schedule Four of the Resource Management Act 1991, an assessment of environmental effects in a level of detail that corresponds with the scale and significance of the effects that the proposed activity may have on the environment. Applications also have to include consideration of the provisions of the Resource Management Act 1991 and other relevant planning documents.

Note: Failure to submit an AEE will result in return of this application.

8. Part 2 of the Resource Management Act 1991

I attach an assessment of the proposed activity against the matters set out in Part 2 of the Resource Management Act 1991.

9. Section 104 of the Resource Management Act 1991

I attach an assessment of the proposed activity against any relevant provisions of a document referred to in Section 104(1)(b) of the Resource Management Act 1991, including the information required by Clause 2(2) of Schedule 4 of the Resource Management Act 1991.

10. Other Information

Are there other activities which are part of the proposal to which the activity relates, for example permitted activities, or building consents, etc?

Permitted activities:

Non Resource Management Act 1991 activities relating to this application:

Additional consents that need to be applied for, or have been applied for:

Section 124 or 165ZH(1)(c)

If the application is affected by Section 124 or 165ZH(1)(c) of the Resource Management Act 1991 (which relate to existing resource consents), the value of the investment of the existing consent to the consent holder. *(This assessment should include more than stating a monetary value.)*

11. Fees

1. The applicable lodgement (base) fee is to be paid at the time of lodging this application. If payment is made into Council's bank account 02-0600-0202861-02, please put Applicant Name and either U-number, property number or consent type as a reference. If you require a GST receipt for a bank payment, please tick ☐
2. The final cost of processing the application will be based on actual time and costs in accordance with Council's charging policy. If actual costs exceed the lodgement fee an invoice will be issued (if actual costs are less, a refund will be made). Invoices are due for payment on the 20th of the month following invoice date. Council may stop processing an application until an overdue invoice is paid in full. Council charges interest on overdue invoices at 15% per annum from the date of issue to the date of payment. In the event of non-payment, legal and other costs of recovery will also be charged.
3. Please make invoice out to: ☒ Applicant ☐ Agent
(if neither is ticked the invoice will be made out to Applicant)

12. Declaration

I (please print name) V Robinson

confirm that the information provided in this application and the attachments to it are accurate.

Signature of applicant or authorised agent: [Signature]

Date: 21-4-22

Notes to Applicant

You may apply for two or more resource consents that are needed for the same activity on the same form.
You must pay the charge payable to the consent authority for the resource consent application under the Resource Management Act 1991 (if any).

Privacy Information

The information you have provided on this form is required so that your application can be processed and so that statistics can be collected by Council. The information will be stored on a public register and held by Council. Details may be made available to the public about consents that have been applied for and issued by Council. If you would like access to or make corrections to your details, please contact Council.

Environmental Protection Authority

If you lodge the application with the Environmental Protection Authority, you must also lodge a notice in form 16A at the same time.

If your application is to the Environmental Protection Authority, you may be required to pay actual and reasonable costs incurred in dealing with this matter (see section 149ZD of the Resource Management Act 1991).

Fast Track Applications (relates to a land use consent for a controlled activity)

An electronic address for service must be provided if you are applying for a Fast Track consent.

Under the Fast Track resource consent process, notice of the decision must be given within 10 working days after the date the application was first lodged with the council, unless the applicant opts out of that process at the time of lodgement.

A Fast Track application may cease to be a Fast Track application under Section 87AAC(2) of the Resource Management Act 1991.

INFORMATION TO SUPPORT AN APPLICATION for Swing or Stern-tie Mooring (mandatory information)

This additional application form is required to be provided to supplement the Resource Consent Application Form.

Note: Some of the information requested below is required under Schedule 4 of the Resource Management Act 1991 incorporating changes as a result of the Resource Management Amendment Act 2013. If you do not complete/provide certain information in this form, your application may be returned to you as incomplete.

Please complete all sections that apply.

1. Description of the Proposal

1(a) Introduction

It is the applicant's responsibility to provide an accurate description of the proposal, including the mooring coordinates and the length and type of vessel to be moored. Such details are essential to the understanding of the environmental effects of the activity. The **precise coordinates and water depth (at Mean Low Water Springs) of the mooring site** are particularly important.

Any vessel using a swing mooring will traverse a circle centred on the mooring block. The size of this 'swing circle' varies from mooring to mooring, depending on the water depth, tackle length and vessel length. Council will calculate the swing circle from the information provided on this form.

1(b) Mooring Details

- Name of bay or locality: CLISSY BAY
- For existing moorings, what is the mooring number and consent number?
- The mooring type is: ☒ Swing ☐ Stern-tie ☐ Pole ☐ Star
☐ Other (please specify)
- Mooring block coordinates: E 1669554 N 5462015
New Zealand Transverse Mercator 2000 (NZTM2000) and New Zealand Map Grid (NZMG) coordinates take the format of a paired seven digit Easting and Northing (for example E1684391, N5428720). World Geodetic System 1984 (WGS84) coordinates are described in degrees and minutes of Latitude and Longitude (for example 41 17.3133 S, 174 00.4706 E).
- If applicable, stern-tie point coordinates:
- If it is a stern-tie mooring, what does the tie back point comprise?

If the mooring is to be a stern-tie mooring, please also provide the coordinates of the stern-tie point and a description of what it is, be it a mooring block, pile, post or some other attachment point in the sea or on land. A tree or tree stump is unlikely to be acceptable to Council.

- Water depth at the mooring site at Mean Low Water Springs (MLWS): 8m
- Weight of the mooring block (if known):
- Total length of tackle (chain and rope) from mooring block to vessel:
- Will the mooring be constructed to accord with Council's 'Mooring Construction Guidelines'?
☒ Yes ☐ No

The guidelines are provided at Appendix 1.

If no, please attach a report prepared by a chartered professional engineer which demonstrates that the mooring has been designed to, as far as possible, securely moor the vessel to the seabed in all weather conditions.

For existing moorings only, the value of the investment of the existing consent holder is:

Council is required by section 104(2A) of the Resource Management Act 1991 to have regard to this value when considering the application.

1(c) Vessel Details

- The vessel to be moored is a: ☒ Pleasure boat ☐ Commercial vessel
☐ Marine farming or fishing vessel ☐ Barge or working platform ☐ Swimming platform
☐ Other (please specify)
- Maximum length of vessel proposed to use the mooring: 12m
If more than one vessel will use the mooring, specify the length of the largest vessel. The resource consent, if granted, will be for the length of vessel specified in the application. To moor a vessel exceeding the consented length will require a further application to Council to do so.
- Vessel Name:
- Emergency contact name and phone number: Chris Rollinson
0274838191 0273052185
In case of the vessel slipping free of its mooring or other incident concerning the mooring.

2. Assessment of Environmental Effects

2(a) Introduction

Section 88 of the Resource Management Act 1991 requires each application for resource consent to include an assessment of the actual and potential effects of the activity on the environment. Such an assessment must include such detail as corresponds with the scale and significance of the effects that the activity may have on the environment. Those effects may be positive or adverse, temporary or permanent, and include past, present or future effects. The term "environment" has a wide definition under the Resource Management Act 1991, and includes ecosystems, people and communities, natural and physical resources, and amenity values.

The applicant's assessment of environmental effects should enable the Council and any affected parties (such as neighbouring mooring or land owners) to understand what will or may happen to the environment when the proposed mooring is installed and used. For existing moorings, the effects to consider are those arising from the continued existence of the mooring and associated vessel. Please attach additional pages if they are necessary to complete your assessment of environmental effects of the proposed or existing mooring.

2(b) Positive Effects

- The mooring will be used: ☐ In association with nearby property Lot 13 DP 6623
☐ In association with a commercial enterprise in the area.
☐ Not in association with any nearby property or commercial enterprise.
☐ As a temporary and short-term 'stopover' or holiday mooring while visiting the area.
☐ Other (please specify)
- Please describe what positive effects the subject mooring of a vessel will have for the applicant and community:
Reduce wear and tear on the road to Cissy Bay
by not having to trailer a boat in

2(c) Effects on Maritime Safety

Will the mooring(s) and associated vessel(s):

- Be located within a main navigational route? ☐ Yes ☒ No
- Hinder safe and practical access to any existing nearby mooring? ☐ Yes ☒ No
- Hinder safe and practical access to any nearby jetty, boatshed, launching ramp or similar? ☐ Yes ☒ No
- Hinder safe and practical access to or operation of any nearby marine farm? ☐ Yes ☒ No
- Be regularly maintained to ensure that the block and tackle remain fit for purpose? ☒ Yes ☐ No
- **For an existing mooring(s) only**, over the previous consent term, has there been a collision(s) between moored vessels which have involved the subject mooring(s)? ☐ Yes ☐ No

2(d) Effects on Recreation Values and Casual Anchoring

Will the mooring(s) and associated vessel(s):

- Hinder the use of any existing water-skiing area (formal or informal)? ☐ Yes ☒ No
- Prevent the use of the embayment for casual? ☐ Yes ☒ No
- Hinder any other recreational activities, including swimming, kayaking, diving or fishing? ☐ Yes ☒ No

2(e) Effects on Marine Ecology

Applicants please note, the Resource Management (Marine Pollution) Regulations 1998 prohibit the discharge of sewage from any vessel unless that discharge occurs more than 500 metres from shore and in water depths greater than 5 metres.

- Does the vessel to be moored have a sewage treatment system or holding tanks? ☒ Yes ☐ No
- Does the mooring design prevent seabed disturbance by the dragging of the mooring tackle?
For example, through the use of an elastic mooring system ☒ Yes ☐ No
- Is the mooring site within an identified area of ecological significance?
You may wish to refer to the 2011 joint Marlborough District Council and Department of Conservation publication: Ecologically Significant Marine Sites in Marlborough, Davidson, R J, et al, available through Council's website: www.marlborough.govt.nz. ☐ Yes ☒ No
☐ Don't know
- **If yes**, will the mooring and associated vessel detract from the identified ecological values? ☐ Yes ☐ No

2(f) Effects on Amenity Values

Will the mooring(s) and associated vessel(s):

- Be consistent with the established appearance and uses of the subject embayment? ☒ Yes ☐ No
- Be the only mooring within the subject embayment? ☐ Yes ☒ No
- Be the only human-made structure in the subject embayment? ☐ Yes ☒ No
- Be different to the predominant type of mooring and vessels in the embayment? ☐ Yes ☒ No

For example, a pole mooring amongst swing moorings or a large mussel barge moored amongst small recreational runabouts.

2(g) Effects on Utilities, including Subaqueous Cables

- Do any utilities including subaqueous cables pass through the embayment? ☐ Yes ☒ No
You may wish to check a marine chart of the area and/or contact telecommunications company Chorus. ☐ Don't know
- If yes, could the location or type of subject mooring cause damage to any existing utilities? ☐ Yes ☐ No
- For an existing mooring(s) only, over the previous consent term, has the mooring or use of it caused damage to any existing utilities including any subaqueous cables? ☐ Yes ☐ No

2(h) Effects on Land Based Facilities

Will the mooring(s) and associated vessel(s):

- Require or utilise a launching ramp, boatshed or similar shoreline facility? ☐ Yes ☒ No
- Result in dinghy, vehicle and/or boat trailer parking on any public land or road? ☐ Yes ☒ No

Following on from the above two questions, please describe how and from where you access your moored vessel and where you store any associated dinghy, vehicle and/or boat trailer:

The beach is across the road from the bay.
The dinghy from the boat will be stored
on our property.

3. Consultation with Affected Persons

3(a) Introduction

Consultation with persons who may be affected by the mooring(s) can have a bearing on the outcome of the application. Consultation involves discussing the proposal with others who may be affected by it, considering their responses, and deciding what will be done (if anything) to account for their concerns. There is however no obligation under the Resource Management Act 1991 for the applicant to consult any person.

For moorings - proposed or existing - the main persons who may be potentially affected are neighbouring mooring owners, nearby land owners and Te Tau Ihu (top of the South Island) iwi that have a statutory acknowledgement for the area.

3(b) Statutory Acknowledgements

A statutory acknowledgment is legal recognition of the particular cultural, spiritual, historical and traditional association of an iwi with an identified statutory area. Statutory acknowledgements for each of the Te Tau Ihu iwi form part of their respective Treaty of Waitangi settlements with the Crown. The settlements were legislated in 2014 and were enacted on 1 August 2014. The eight iwi of Te Tau Ihu to which these statutory acknowledgements relate are:

Ngāti Apa ki te Rā Tō

Ngāti Rārua

Ngāti Kuia

Ngāti Tama ki Te Tau Ihu

Rangitāne o Wairau

Te Ātiawa o Te Waka-a-Māui

Ngāti Koata

Ngāti Toa Rangatira

Each of the above iwi have a statutory acknowledgement covering the coastal marine area of the entire Marlborough Sounds, and are therefore informed of every resource consent application affecting that area. If an applicant wishes to consult any one or more of the iwi prior to making an application, iwi contact details are on Council's website <http://www.marlborough.govt.nz/Your-Council/Tangata-Whenua.aspx> or the Te Puni Kokiri website <http://www.tkm.govt.nz/region/te-tau-ihu/>

3(c) Consultation

- Has any person or iwi been consulted about the subject mooring? ☐ Yes ☒ No
If yes, please outline the person(s) or iwi consulted and the outcomes of that consultation process below

.....

.....

.....

.....

3(d) Affected Persons

Once the Council has received the application its officers will determine whether the application needs to be publicly notified. Public notification consists of the placement of a notice of the application in the local newspaper and a copy of the application being sent to interested persons. Within 20 working days thereafter, any person can make a submission to the Council on the application, stating their support, opposition or neutrality to the application.

If the effects of the proposal on the environment are assessed as being minor, public notification will likely be unnecessary. If this is the case the Council may still identify individual persons who will be affected by the application, and may ask that the applicant seeks the written approval to the proposal from those affected persons. If the applicant is unwilling or unable to obtain those written approvals the Council will serve notice of the application on those identified persons - called 'limited notification'. The notified persons will then have an opportunity to make a submission on the application.

4. Objectives and Policies

4(a) Introduction

Section 88 and Schedule 4 of the Resource Management Act 1991 requires each application for resource consent to include an assessment of the relevant provisions of the applicable resource management documents. Such an assessment must be specified in sufficient detail to satisfy the purpose for which it is required. The following documents and specified provisions therein are not an exhaustive list, but are likely to be of most relevance to an application for an ordinary mooring - either an existing or proposed mooring.

4(b) New Zealand Coastal Policy Statement

Policy 6(2)(a): Recognise potential contributions to the social, economic and cultural wellbeing of people and communities from use and development of the coastal marine area.

- In what ways would being able to moor a vessel in the proposed location contribute to the applicant's wellbeing?

It will reduce the amount of heavy trailer damage to the road

Policy 6(2)(b) Recognise the need to maintain and enhance the public open space and recreation qualities and values of the coastal marine area.

- Will the proposal detract from the recreation qualities and values of the area? ☐ Yes ☒ No

4(c) Marlborough Regional Policy Statement

Policy 7.1.10: To enable appropriate type, scale and location of activities by: clustering activities with similar effects and ensuring activities reflect the character and facilities available in the communities in which they are located.

- Will the subject mooring be clustered with others? ☒ Yes ☐ No
- Will the subject mooring reflect the established character of the area? ☒ Yes ☐ No

4(d) Marlborough Sounds Resource Management Plan

Policy 6.1.2.1.4: Recognise and provide for continued tangata whenua access to and use of traditional coastal resources such as mataitai (seafood, shellfish), taiapure (reserved fishing grounds) and taonga raranga (plants valued for weaving).

- Will the subject mooring and associated vessel allow for such continued access and use?
☒ Yes ☐ No

Policy 9.2.1.1.3: Exclusive occupation of the coastal marine area or occupation which effectively excludes the public will only be allowed to the extent reasonably necessary to carry out the activity.

- Is the mooring tackle the minimum length necessary?
☒ Yes ☐ No

Policy 9.2.1.1.7: Avoid adverse effects from the occupation of coastal space in or around recognised casual anchoring areas

- Is the subject embayment suitable for use as a casual anchorage?
☒ Yes ☐ No

- Will the subject mooring and associated vessel constrain the available anchoring area?
☒ Yes ☐ No

Policy 19.3.1.1: Avoid, remedy or mitigate the adverse effects of activities and structures on navigation and safety, within the coastal marine area.

- Will the mooring be located and maintained to ensure safe navigation and maritime safety?
☒ Yes ☐ No

5. Additional Notes to Applicants

5(a) Official Information

The information supplied in the application is official information. It will be used to process the application and, together with other official information, assist in the management of the region's natural and physical resources. Access to information held by the Marlborough District Council is administered in accordance with the Local Government Official Information and Meetings Act 1987 and Privacy Act 1993. This means that information within this application may be disclosed to other people who request it in accordance with the terms of these acts.

5(b) Application and Consent Costs

The Council operates a user-pays policy for the processing of resource consent applications. This means the applicant (rather than ratepayers) will be charged for the actual and reasonable costs associated with the processing of the application. A copy of the policy and complete schedule of current fees are available on our website:

www.marlborough.govt.nz/Services/Resource-Consents/Fees.aspx

An initial application processing fee of \$950.00 (including GST) must be paid at the time of lodging the application for resource consent. The application will not be accepted for processing until this fee has been paid. If payment is made into Council's bank account 02-0600-0202861-02, please put the applicant name and either the property number or consent type as a reference. If you require a GST receipt for a bank payment, please tell us.

The total fee for processing the application will depend on the complexity of the proposal, the significance of its effects and the notification and hearing process required to determine the application. A simple application which is not publicly notified will typically cost between \$900 and \$1,100 to process, while a complex application requiring a public hearing is likely to cost upwards of \$5,000. The processing fee must be paid regardless of the outcome of the application.

The applicant is liable for all fees and charges relating to this application. Payment is due within thirty (30) days of the issue date of any subsequent invoice. Council will charge interest on overdue invoices at 15% per annum from the date of issue to the date of payment. In the event of non-payment the applicant will be liable for all legal and other costs of recovery.

5(c) Timeframes for Reaching a Decision

Section 115 of the Resource Management Act 1991 sets out the time limits within which the Council must determine the application. If the application is not publicly notified a decision can be expected within 20 working days of a complete application being lodged. If the application is publicly notified a decision can be expected within 60 working days, unless a public hearing is required in which case a decision can be expected within 130 working days. The term 'working days' excludes weekends, public holidays and those periods where Council is awaiting further information or affected party approvals from the applicant.

5(d) Ongoing Responsibilities of the Applicant

If the application is granted, the consent holder will be responsible for complying with the conditions of consent and the payment of any monitoring charges Council incurs in monitoring the exercise of the consent. If the consent holder wishes to cancel (surrender) the consent, transfer it to another party or change any conditions of consent, the consent holder must submit written notice to the Council and pay any required charge.

6. Declaration

I hereby certify that, to the best of my knowledge and belief, the information given in this application is true and correct.

.....
Signature(s) of applicant(s) or agent (*delete one*)

Privacy Information: *The information you have provided on this form is required so that your application can be processed and so that statistics can be collected by Council. The information will be stored on a public register and held by Council. Details may be made available to the public about consents that have been applied for and issued by Council. If you would like access to or make corrections to your details, please contact Council.*

Applicant Name: V. ROBINSON

INFORMATION TO SUPPORT AN APPLICATION for Swing or Stern-tie Mooring (mandatory information)

This additional application form is required to be provided to supplement the Application for a Resource Consent.

Introduction

It is the applicant's responsibility to provide an accurate description of the proposal, including the mooring coordinates and the length and type of vessel to be moored. Such details are essential to the understanding of the environmental effects of the activity. The **precise coordinates and water depth (at Mean Low Water Springs) of the mooring site** are particularly important.

Any vessel using a swing mooring will traverse a circle centred on the mooring block. The size of this 'swing circle' varies from mooring to mooring, depending on the water depth, tackle length and vessel length. Council will calculate the swing circle from the information provided on this form.

1(a) Coastal Permit Details

Do you currently hold a coastal permit for a mooring that is due to expire?

☐ Yes

Please state the permit number (i.e. U180796):

Please state the mooring number:

Please state when was the mooring last inspected:

☒ No

Is there a mooring number for the unconsented mooring? ☐ Yes ☒ No

If yes, please state the mooring number:

1(b) Mooring Details

The mooring type is:

☒ Swing (chain and rope tackle)

☐ Elasticated system (i.e. Marine Flex)

☐ Stern-tie

☐ Pole

☐ Star

☐ Other (please specify):

Mooring block coordinates:

Easting: 1669554

Northing: 5462015

New Zealand Transverse Mercator 2000 (NZTM2000) coordinates take the format of a paired seven digit Easting and Northing (for example E1684391, N5428720).

Stern-tie mooring:

Stern-tie point coordinates (sea):

Easting:

Northing:

Stern-tie point coordinates (land):

Easting:

Northing:

What do the tie back point(s) comprise (sea and land)?

If the mooring is to be a stern-tie mooring, please also provide a description of what it is, be it a mooring block, pile, post or some other attachment point in the sea or on land. A tree or tree stump is unlikely to be acceptable to Council.

Water depth at the mooring site at Mean Low Water Springs (MLWS): 8.0 m

Water depth at the mooring site at Mean High Water Springs (MHWS): 11.0 m

Weight of the mooring block (if known):

Total length of tackle (chain and rope) from mooring block to vessel:

Will the mooring be constructed to accord with Council's 'Mooring Construction Guidelines'? ☐ Yes ☐ No

If no, please attach a report prepared by a chartered professional engineer which demonstrates that the mooring has been designed to, as far as possible, securely moor the vessel to the seabed in all weather conditions. **(The guidelines are provided as Appendix 1)**

1(c) Vessel Details

The vessel to be moored is:

☒ Pleasure boat

☐ Commercial vessel

☐ Marine farming or fishing vessel

☐ Barge or working platform

☐ Swimming platform

☐ Other (please specify):

Maximum length of vessel proposed to use the mooring: 12 m

If more than one vessel will use the mooring, specify the length of the largest vessel. The resource consent, if granted, will be for the length of vessel specified in the application. To moor a vessel exceeding the consented length will require a further application to Council to do so.

Vessel name(s) (if known):

Emergency contact details:

In case of the vessel slipping free of its mooring or other incident concerning the mooring.

Contact Name: Chris Robinson

Contact Phone: 0272052185

2(a) Mooring Used For

The mooring will be used:

- ☒ In association with nearby property Lot 13 DP 6623 *Cissy Bay*
- ☐ In association with a commercial enterprise in the area
- ☐ Not in association with any nearby property or commercial enterprise
- ☐ As a temporary and short-term 'stopover' or holiday mooring while visiting the area

SUBMISSION ON APPLICATION FOR A RESOURCE CONSENT

1. Submitter Details

Name of Submitter(s) in full _____

Electronic Address for Service (*email address*) _____

Postal Address for Service (*or alternative
method of service under section 352 of the Act*) _____

Primary Address for Service (*must tick one*)

Electronic Address (*email, as above*) ☐ or, Postal Address (*as above*) ☐

Telephone (*day*) _____ Mobile _____ Facsimile _____

Contact Person (*name and designation,
if applicable*) _____

2. Application Details

Application Number _____ U _____

Name of Applicant (*state full name*) _____

Application Site Address _____

Description of Proposal _____

3. Submission Details (*please tick one*)

I/we support all or part of the application ☐

I/we oppose all or part of the application ☐

I/we are neutral to all or part of the application ☐

- ☐ I am a trade competitor for the purposes of section 308B of the Resource Management Act 1991
- ☐ I am directly affected by an effect of the subject matter of the submission that:
- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition
- ☐ I am NOT directly affected by an effect of the subject matter of the submission that:
- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition
- ☐ I am NOT a trade competitor for the purposes of section 308B of the Resource Management Act 1991

The specific parts of the application that my/our submission relates to are *(give details, using additional pages if required)*

The reasons for my/our submission are *(use additional pages if required)*

The decision I/we would like the Council to make is *(give details including, if relevant, the parts of the application you wish to have amended and the general nature of any conditions sought. Use additional pages if required)*

4. Heard in Support of Submission at the Hearing

I/we wish to speak in support of my/our submission

☐

I/we do not wish to speak in support of my/our submission

☐

OPTIONAL: Pursuant to section 100A of the Resource Management Act 1991 I/we request that the Council delegate its functions, powers, and duties required to hear and decide the application to one or more hearings commissioners who are not members of the Council. *(Please note that if you make such a request you may be liable to meet or contribute to the costs of commissioner(s). Requests can also be made separately in writing no later than 5 working days after the close of submissions.)*

☐

6. Important Information

- Council must receive this completed submission before the closing date and time for receiving submissions for this application. The completed submission may be emailed to mdc@marlborough.govt.nz.
- The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.
- You must serve a copy of your submission on the applicant as soon as is reasonably practicable after you have served your submission on the consent authority.
- Only those submitters who indicate that they wish to speak at the hearing will be sent a copy of the section 42A hearing report.
- If you are making a submission to the Environmental Protection Authority, you should use form 16B.
- If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.
- If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.
- Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least 1 of the following applies to the submission (or part of the submission):
 - it is frivolous or vexatious;
 - it discloses no reasonable or relevant case;
 - it would be an abuse of the hearing process to allow the submission (or the part) to be taken further;
 - it contains offensive language;
 - it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

7. Privacy Information

The information you have provided on this form is required so that your submission can be processed under the Resource Management Act 1991. The information will be stored on a public file held by Council. The details may also be available to the public on Council's website. If you wish to request access to, or correction of, your details, please contact Council.
