

U940170.
Prop. 161736

A.

C + J SIMMONDS
BORE AT
LONE GUM ESTATE
DOG POINT RD
B.W.

The original well put down by Mr O'Connell did fail and J. & D. Butt Welldriving were called in to rectify it. It was decided to put down another well.

immediately along side the first well rather than attempt to fix the first one.

B.

Herewith are

photograph of the 2 domestic wells numbered on the reverse :

"A" - which shows the first well which has been capped off and abandoned. (The lateral in the photo goes past the structure and is nothing to do with the well).

"B" - which shows the replacement well head. This has been set so it can be covered underground.

"C" - which show the 2 wells. They are about 10' apart.

C.

We trust this is all of the information you require.
