Subject: RE: New Consent reporting for Hurricane Holdings

Good afternoon Kevin and Mark,

Mark - It was great to finally meet you and put a face to the name.

Kevin – I can confirm that the meter numbers are incorrect.

Meter 2394 has logger details 948019

Meter 2395 has logger details 947994

Could you please swap the identifiers over and provide me with the historic data?

Ngā mihi,
Chanelle Seabrook

Hi Guys

I can only go by Marks info to me:

Logger 947994 is well 2394

Logger 948019 is well 2395

But looking at Marks comments:

2394 has a 100mm meter, which should be the larger amount of take. This is the site nearest the house.

2395 is only a 80mm meter. This the site out in the paddock.

This appears to be opposite to MDC report below.

Regards Kevin

Good morning Mark and Kevin,

Thank you for your email.

I have had a look at our files and Mark has the meter numbers switched over (meter 2395 is the large take by the house and meter 2394 is out in the paddock). Please see correct details below.

Meter	Well	Location	Take	Size
2395	O27w/0077	Near house	Large take (3000 m3/day)	100mm
2394	O27w/0061	Paddock	Small take (750 m3/day)	80mm

Kevin, can you confirm that the data is coming through under the correct identifiers?

Ngā mihi,

Chanelle Seabrook

Hi Kevin

This looks correct to me.

2394 has a 100mm meter, which should be the larger amount of take. This is the site nearest the house.

2395 is only a 80mm meter. This the site out in the paddock.

Cheers

Mark

Hi Mark

As per below, please confirm we have the correct Meter number on the correct site?

Regards Kevin

Hi Kevin,

Further to my below email. I have had a look at the historic data for these meters and it appears that the data was previously being sent under the wrong identifier (i.e. meter 2394 had takes around 2500m³/day and meter 2395 was abstracting ~750 m³/day).

Could you ensure each data stream is sent under the correct identifier going forward. I understand that you were not the previous data host who made this mistake.

If you have any questions please let me know.

Hi Kevin,

Once the previous consent (U200358) has been surrendered the allocations will be as follows:

Meter number	U130662 (Long term water)	U210045 (A Class)	Total
2395 (O27w/0077)	1108 m ³ /day	1892 m ³ /day	3000 m ³ /day
2394 (O27w/0061)	750 m ³ /day		750 m ³ /day

I will check next week to see if we are receiving data for these meters. Any questions let me know.

Hi

Can I please have the volume limits for the following meters for Hurricane Holdings:

U210045 – 2395
U210045 – 2394
